WJFF is Sullivan County’s public radio station. Broadcasting out of Jeffersonville New York, they offer a wide span of music, news and public affairs. In addition to airing National Public Radio shows, they also broadcast Pacifica Radio, shows from the BBC and a very eclectic mix of locally produced shows that cover all manner of music and discussion. WJFF has been on the air since February of 1990, and may be the only completely hydropowered radio station in the United States.

The station maintains a rich relationship with the local community. They host many happenings throughout the year. Barbeques, dances, yard sales, auctions and live music weekends among other events are greatly enjoyed by everyone who attends them.

Perhaps their most anticipated fundraising event is the annual WJFF Music Sale. Held at the White Sulphur Springs Fire Hall on the Saturday of each Thanksgiving weekend, the sale features a silent auction for a wide variety of donated audio components and musical instruments. There are music books and DVDs for sale as well, but it’s the vinyl records that really draw the crowds. Hundreds of used 45 rpm singles, and thousands of used long playing records can be purchased for less than a dollar apiece, though some cherry-picked premium albums will sell for more. Due to entire collections being donated, often times a collection of albums will sell for more. Due to entire collections being donated, often times a collection of albums will sell for more.

WJFF Music Sale

White Sulphur Springs Fire Hall, Sat. Nov. 30, 11:00am, $ admission

As the Tattler went to press it was reported that Paul Barrere, long time guitarist for Little Feat, has passed away at age 71. For those who are fans of the band, this is an unimaginable blow. Folks who are unfamiliar with their work are encouraged to check out 1978’s double live Waiting For Columbus. Yet another true contender forsaken by the R’n’R Hall of Fame…sigh*

**FOUNDED ’EM AT THE MUSIC SALE OVER THE YEARS:**

Santana: Caravanserai
The Who: Magic Bus

GRATEFUL DEAD GIANTS STADIUM

Lots of good stuff out now from the good old Grateful Dead: The Giants Stadium 1987, 1989, 1991 box set contains a single 1987 show (sans the Bob Dylan closing set), two complete shows each from the years 1989 & 1991, as well as video content and well designed spiral bound book, packaged lovingly in a lavish yet compact and colorful box. All the shows are emblematic of the tight, high energy performances and musical peaks that the band was attaining at the time. The first three shows were recorded on 24 track tape. The final two, from 1991, were the only live shows of thousands that the band played, to have been recorded on 48 track analog tape. This means that each voice, instrument - in fact, each drum & cymbal, was carefully mixed into the final master for sparkling audio clarity that is miles above the average sound on a GD live recording. The performances are sterling examples of the band's capabilities on the ’91 summer tour, which featured virtuoso keyboardist Bruce Hornsby on grand piano. The 6/17/91 set is included on the R’n’R Hall of Fame…sigh*
